List of Applications Deleted in ARL #2689

SoftwareTitleName	Publisher	Reason
ACDSee 1.0	ACD Systems International	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Altiris Deployment Solution Agent 5.5	Broadcom	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Altiris Deployment Solution Agent 6.1	Broadcom	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Altiris Deployment Solution Agent 6.5	Broadcom	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Altiris Deployment Solution Agent 6.9	Broadcom	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Altiris Deployment Solution Agent 7.1	Broadcom	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Altiris Deployment Solution Agent 7.5	Broadcom	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AnyBurn 4.3	Power Software	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AnyBurn 4.9	Power Software	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AnyBurn 5.1	Power Software	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AnyBurn 5.2	Power Software	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Aspen InfoPlus.21 17.0	Aspen Technology	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Aspen Integration Infrastructure 12.0	Aspen Technology	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Aspen Process Explorer 17.0	Aspen Technology	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AutoBookmark Professional Plug-In 6.9	EverMap	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AutoUpdate 2.2	Sophos	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AutoUpdate 2.5	Sophos	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AutoUpdate 2.6	Sophos	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AutoUpdate 2.7	Sophos	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AutoUpdate 2.9	Sophos	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AutoUpdate 4.3	Sophos	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AutoUpdate 5.10	Sophos	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AutoUpdate 5.11	Sophos	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AutoUpdate 5.13	Sophos	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AutoUpdate 5.14	Sophos	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AutoUpdate 5.15	Sophos	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AutoUpdate 5.16	Sophos	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AutoUpdate 5.17	Sophos	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AutoUpdate 5.4	Sophos	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AutoUpdate 5.7	Sophos	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AutoUpdate 5.8	Sophos	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
BCT Inspector 16.1	BCT Technology	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
BlackVue 2.07	PittaSoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
BlackVue 2.1	PittaSoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
BlackVue 2.12	PittaSoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
BlackVue 2.13	PittaSoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
BS Contact 9.0	Bitmanagement Software	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Chalice Viewer 1.6	Horizon Discovery	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
CommandCentral Suite 5.2	Veritas	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Connections Desktop Plug-ins for Microsoft Windows 14.0	HCL Technologies	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Connections Desktop Plug-ins for Microsoft Windows 14.1	HCL Technologies	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Connections Desktop Plug-ins for Microsoft Windows 15.0	HCL Technologies	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Connections Desktop Plug-ins for Microsoft Windows 16.0	HCL Technologies	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Connections Desktop Plug-ins for Microsoft Windows 16.1	HCL Technologies	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Connections Desktop Plug-ins for Microsoft Windows 4.0	HCL Technologies	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Connections Desktop Plug-ins for Microsoft Windows 4.5	HCL Technologies	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Control-M client 9.0	BMC	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Control-M Enterprise Manager 9.0	BMC	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
CoSign Client 6.0	DocuSign	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Creative Suite CC Design & Web Premium	Adobe	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
CryptoKit 5.2	DocuSign	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Data Explorers Toolkit 8.4	IHS Markit	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Data Explorers Toolkit 9.2	IHS Markit	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Data Server Client 10.5	IBM	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Data Server Client 11.5	IBM	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Data Server Client 9.5	IBM	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Data Server Client 9.6	IBM	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Data Server Client 9.7	IBM	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Data Server Runtime Client 10.5	IBM	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Data Server Runtime Client 10.6	IBM	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Data Server Runtime Client 9 Beta	IBM	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Data Server Runtime Client 9.5	IBM	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Data Server Runtime Client 9.5 Lite	IBM	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Data Server Runtime Client 9.7	IBM	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Data Server Runtime Client 9.7 Lite	IBM	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Data Server Runtime Client 9.8	IBM	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
DB2 Data Server Runtime Client 10.5	IBM	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Deployment Agent 6.0	Broadcom	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Deployment Agent 6.1	Broadcom	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Deployment Agent 6.5	Broadcom	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Deployment Agent 6.8	Broadcom	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Deployment Agent 6.9	Broadcom	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Deployment Solution Agent 7.6	Broadcom	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Deployment Solution Agent 8.1	Broadcom	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Deployment Solution Agent 8.5	Broadcom	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Deployment Solution Agent 8.6	Broadcom	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Desigo Total Room Automation 5.0	Siemens	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Desktop Application 6.1	Autodesk	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Desktop Application 6.2	Autodesk	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Desktop Application 8.2	Autodesk	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Desktop Application 8.3	Autodesk	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Desktop Application 8.4	Autodesk	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Desktop Apps 8.1	Autodesk	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Duck Creek EXAMPLE Forms 6.1	Duck Creek Technologies	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
easymap office 12.0	infas Holding AG	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Edgarizer 5.3	Refinitiv	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
eG Manager 7.1	eG Innovations	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Engineering Workflow Management - Client for Eclipse IDE 7	IBM	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Erlang/OTP 24.3	Telefonaktiebolaget LM Ericsson	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
FACTS 1.0	Berry Consultants	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
FitPro Ultra 4.5	TSI	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
FIXPERIENCE 1.2	fischerwerke	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
FlexNet Manager for Engineering Applications Admin 14.2	Flexera	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
FlexNet Manager for Engineering Applications Admin 15.1	Flexera	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
FlexNet Manager for Engineering Applications Admin 15.10	Flexera	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
FlexNet Manager for Engineering Applications Admin 15.2	Flexera	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
FlexNet Manager for Engineering Applications Admin 15.3	Flexera	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
FlexNet Manager for Engineering Applications Admin 15.4	Flexera	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
FlexNet Manager for Engineering Applications Admin 15.5	Flexera	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
FlexNet Manager for Engineering Applications Admin 15.7	Flexera	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
FlexNet Manager for Engineering Applications Admin 15.8	Flexera	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
FlexNet Manager for Engineering Applications Admin 15.9	Flexera	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
FlexNet Manager for Engineering Applications Reporting 14.2	Flexera	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
FlexNet Manager for Engineering Applications Reporting 15.1	Flexera	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
FlexNet Manager for Engineering Applications Reporting 15.10	Flexera	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
FlexNet Manager for Engineering Applications Reporting 15.2	Flexera	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
FlexNet Manager for Engineering Applications Reporting 15.3	Flexera	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
FlexNet Manager for Engineering Applications Reporting 15.4	Flexera	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
FlexNet Manager for Engineering Applications Reporting 15.5	Flexera	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
FlexNet Manager for Engineering Applications Reporting 15.7	Flexera	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
FlexNet Manager for Engineering Applications Reporting 15.8	Flexera	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
FlexNet Manager for Engineering Applications Reporting 15.9	Flexera	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
FlexNet Manager Platform Oracle Enterprise Manager Adapter 11.1	Flexera	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
FlexNet Manager Platform Oracle Enterprise Manager Adapter 11.2	Flexera	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
FlexNet Manager Platform Oracle Enterprise Manager Adapter 13.1	Flexera	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
FlexNet Manager Platform Oracle Enterprise Manager Adapter 14.0	Flexera	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.

FVMS 5.31	Honeywell	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
git-core 2.31	Oracle	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
HMC Power Management Software 7.6	IBM	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
HMC Power Management Software 7.7	IBM	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
HMC Power Management Software 7.9	IBM	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
HMC Power Management Software 8.3	IBM	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
HMC Power Management Software 8.6	IBM	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
HOLMES 1.1	Wipro	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
IAM Suite 125.4	Broadcom	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
IAM Suite 125.6	Broadcom	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
IAM Suite 211.2	Broadcom	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
IAM Suite 211.3	Broadcom	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
IAM Suite 212.4	Broadcom	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
IAM Suite 212.6	Broadcom	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
IAM Suite 212.7	Broadcom	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
IAM Suite 212.8	Broadcom	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
IAM Suite 215.0	Broadcom	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
IAM Suite 216.0	Broadcom	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
IAM Suite 217.0	Broadcom	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
IAM Suite 220.0	Broadcom	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
IAM Suite 221.2	Broadcom	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
IAM Suite 221.4	Broadcom	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
IAM Suite 231.1	Broadcom	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
iC IR 7.1	METTLER TOLEDO	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Insight 2019	Autodesk	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
IntexDesktop 5.5	Intex Solutions	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Investment Management Solution 18.0	Charles River Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Investment Management Solution 9.2	Charles River Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
JDA Platform SRE 2019.1	JDA Software Group	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Keepass 1.04	Dominik Reichl	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Keepass 1.06	Dominik Reichl	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Keepass 1.10	Dominik Reichl	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
KeePass 1.11	Dominik Reichl	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
KeePass 1.12	Dominik Reichl	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
KeePass 1.13	Dominik Reichl	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
KeePass 1.14	Dominik Reichl	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
KeePass 1.15	Dominik Reichl	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
KeePass 1.16	Dominik Reichl	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Keepass 1.18	Dominik Reichl	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
KeePass 1.19	Dominik Reichl	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Keepass 1.21	Dominik Reichl	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Keepass 1.22	Dominik Reichl	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Keepass 1.23	Dominik Reichl	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Keepass 1.25	Dominik Reichl	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Keepass 1.26	Dominik Reichl	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Keepass 1.27	Dominik Reichl	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Keepass 1.28	Dominik Reichl	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Keepass 1.29	Dominik Reichl	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Keepass 1.3	Dominik Reichl	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Keepass 1.30	Dominik Reichl	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Keepass 1.31	Dominik Reichl	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Keepass 1.32	Dominik Reichl	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Keepass 1.33	Dominik Reichl	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Keepass 1.34	Dominik Reichl	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Keepass 1.35	Dominik Reichl	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Keepass 1.36	Dominik Reichl	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Keepass 1.37	Dominik Reichl	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Keepass 1.38	Dominik Reichl	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Keepass 2.09	Dominik Reichl	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Keepass 2.10	Dominik Reichl	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Keepass 2.14	Dominik Reichl	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Keepass 2.16	Dominik Reichl	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Keepass 2.18	Dominik Reichl	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Keepass 2.19	Dominik Reichl	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Keepass 2.20	Dominik Reichl	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Keepass 2.22	Dominik Reichl	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.

Power Automate Desktop 2.11	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Power Automate Desktop 2.12	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Power Automate Desktop 2.13	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Power Automate Desktop 2.14	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Power Automate Desktop 2.15	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Power Automate Desktop 2.16	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Power Automate Desktop 2.17	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Power Automate Desktop 2.18	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Power Automate Desktop 2.19	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Power Automate Desktop 2.2	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Power Automate Desktop 2.3	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Power Automate Desktop 2.4	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Power Automate Desktop 2.5	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Power Automate Desktop 2.6	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Power Automate Desktop 2.7	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Power Automate Desktop 2.8	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Power Automate Desktop 2.9	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Power BI Report Server 1.10	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Power BI Report Server 1.11	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Power BI Report Server 1.12	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Power BI Report Server 1.13	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Power BI Report Server 1.2	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Power BI Report Server 1.3	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Power BI Report Server 1.4	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Power BI Report Server 1.5	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Power BI Report Server 1.6	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Power BI Report Server 1.8	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Power BI Report Server 1.9	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Power BI Report Server 2.51	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Power BI Report Server 2.61	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
ProdX 2.1	METTLER TOLEDO	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
RightFax Product Suite 11.0	OpenText	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
samba 3.5	Oracle	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Securities Finance Toolkit 9.2	IHS Markit	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Simulation Workbook 12.1	Aspen Technology	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Site Manager 11.5	CIENA	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Solaris 5.10	Oracle	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Solaris 5.8	Oracle	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Solaris 5.9	Oracle	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
SolidWorks OEM 2015	Dassault Systemes	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
SolidWorks OEM 2016	Dassault Systemes	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
SOLIDWORKS OEM 2017	Dassault Systemes	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
SOLIDWORKS OEM 2018	Dassault Systemes	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
SOLIDWORKS OEM 2020	Dassault Systemes	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
SOLIDWORKS OEM 2021	Dassault Systemes	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Starter Kit for Supply Chain Analytics 2020	Alteryx	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Studio 6.0	Ranorex	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Studio 6.2	Ranorex	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
TeamViewer Host	TeamViewer	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
TeamViewer Host 12.1	TeamViewer	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
TeamViewer Host 13.1	TeamViewer	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
TeamViewer Host 13.2	TeamViewer	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
TeamViewer Host 14.1	TeamViewer	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
TeamViewer Host 14.2	TeamViewer	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
TeamViewer Host 14.3	TeamViewer	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
TeamViewer Host 14.4	TeamViewer	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
TeamViewer Host 14.5	TeamViewer	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
TeamViewer Host 14.6	TeamViewer	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
TeamViewer Host 14.7	TeamViewer	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
TeamViewer Host 15.1	TeamViewer	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
TeamViewer Host 15.10	TeamViewer	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
TeamViewer Host 15.11	TeamViewer	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
TeamViewer Host 15.12	TeamViewer	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
TeamViewer Host 15.13	TeamViewer	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
TeamViewer Host 15.14	TeamViewer	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
TeamViewer Host 15.15	TeamViewer	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
TeamViewer Host 15.16	TeamViewer	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
TeamViewer Host 15.17	TeamViewer	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
TeamViewer Host 15.18	TeamViewer	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
TeamViewer Host 15.19	TeamViewer	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
TeamViewer Host 15.2	TeamViewer	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
TeamViewer Host 15.20	TeamViewer	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
TeamViewer Host 15.21	TeamViewer	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
TeamViewer Host 15.22	TeamViewer	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
TeamViewer Host 15.23	TeamViewer	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
TeamViewer Host 15.24	TeamViewer	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
TeamViewer Host 15.25	TeamViewer	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
TeamViewer Host 15.26	TeamViewer	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
TeamViewer Host 15.27	TeamViewer	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
TeamViewer Host 15.28	TeamViewer	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
TeamViewer Host 15.29	TeamViewer	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
TeamViewer Host 15.3	TeamViewer	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
TeamViewer Host 15.4	TeamViewer	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
TeamViewer Host 15.5	TeamViewer	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
TeamViewer Host 15.6	TeamViewer	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.

Application	Vendor	Description
TeamViewer Host 15.7	TeamViewer	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
TeamViewer Host 15.8	TeamViewer	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
TeamViewer Host 15.9	TeamViewer	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Teradata odbc 16.2	Teradata	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Toad for Oracle Read-Only 12.1	Quest	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Unified WFO Monitoring and Recording Services 105.1	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Video Central Lite 12.05	Xtralis	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
VideoXpert VxOpscenter 2.1	Pelco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
VisionPro 91.1	Cognex	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
VisionPro 92.1	Cognex	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
VisionPro 95.1	Cognex	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
VisionPro 95.2	Cognex	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
VisionPro 96.1	Cognex	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
VisionPro 96.2	Cognex	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
vSphere Update Manager Client 5.1	VMware	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
vSphere Update Manager Client 5.5	VMware	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
vSphere Update Manager Client 6.0	VMware	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
WebEx Productivity Tools 27.2	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
WebEx Productivity Tools 31.11	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
WebEx Productivity Tools 32.1	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
WebEx Productivity Tools 32.10	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
WebEx Productivity Tools 32.12	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
WebEx Productivity Tools 32.2	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
WebEx Productivity Tools 32.3	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
WebEx Productivity Tools 32.4	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
WebEx Productivity Tools 32.6	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
WebEx Productivity Tools 32.7	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
WebEx Productivity Tools 32.8	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
WebEx Productivity Tools 32.9	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
WebEx Productivity Tools 33.3	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
WebEx Productivity Tools 33.6	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
WebEx Productivity Tools 33.7	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Webex Productivity Tools 39.10	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Webex Productivity Tools 39.11	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
WebEx Productivity Tools 39.5	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
WebEx Productivity Tools 39.6	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
WebEx Productivity Tools 39.7	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
WebEx Productivity Tools 39.8	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
WebEx Productivity Tools 39.9	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
WebEx Productivity Tools 40.10	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
WebEx Productivity Tools 40.11	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
WebEx Productivity Tools 40.2	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
WebEx Productivity Tools 40.4	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
WebEx Productivity Tools 40.6	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
WebEx Productivity Tools 40.7	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
WebEx Productivity Tools 40.8	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Webex Productivity Tools 40.9	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
WebEx Productivity Tools 41.2	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
WebEx Productivity Tools 41.3	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
WebEx Productivity Tools 41.4	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
WebEx Productivity Tools 41.5	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
WebEx Productivity Tools 41.6	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
WebEx Productivity Tools 41.7	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
WebEx Productivity Tools 41.9	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Wonderware Historian Client 20.0	Schneider Electric	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Wonderware Historian Client 21	Schneider Electric	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
XE 4.0	Mitek Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
