## List of Applications Deleted in ARL #2694

		List of Applications Deleted in ARL #2694
SoftwareTitleName	Publisher	Reason
123Scan 5.1	Zebra Technologies	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
123Scan 5.2 123Scan 5.3	Zebra Technologies Zebra Technologies	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
1756 HART Module Profiles	Rockwell Automation	This Application is ignored in favor of new wildcarding rule for non-commercial applications. An related evidences are mapped to respective major version of the Product.  This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
1756 HART Module Profiles 1	Rockwell Automation	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
1756 HART Module Profiles 2	Rockwell Automation	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
1756 HART Module Profiles 3.0	Rockwell Automation	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
1756 HART Module Profiles 4.1	Rockwell Automation	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
1769 ASCII Module Profiles 1 1769 ASCII Module Profiles 2	Rockwell Automation Rockwell Automation	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
1788 Ethernet to DeviceNet Module		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
1788 Ethernet to DeviceNet Module		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
1788 Ethernet to DeviceNet Module	Rockwell Automation	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
1788 Ethernet to DeviceNet Module		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
1788 Ethernet to DeviceNet Module		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
1788 Ethernet to DeviceNet Module 1788 Ethernet to DeviceNet Module	Rockwell Automation	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
1788 Ethernet to DeviceNet Module		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
1788 Ethernet to DeviceNet Module		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
1788 Ethernet to DeviceNet Module	Rockwell Automation	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
ACT Enterprise Client	Vanderbilt Industries	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
ACT Enterprise Client 2.11 ACT Enterprise Client 2.12	Vanderbilt Industries Vanderbilt Industries	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
ACT Enterprise Client 2.12	Vanderbilt Industries	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
ACT Enterprise Client 2.9	Vanderbilt Industries	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Advanced Toolpath Utility 2020	Autodesk	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Agent 1.7	SolarWinds	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Agent 1.8	SolarWinds	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AIX Release Content List (bos.content AIX Release Content List (bos.content)	IBM IBM	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AlXwindows Motif Window Manage		This Application is ignored in favor of new wildcarding rule for non-commercial applications. An related evidences are mapped to respective major version of the Product.  This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AlXwindows msmit Application (X11		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AlXwindows xdm Application (X11.a	IBM	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Amer National Stds Institute Termin		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Apache Axis 1  Apache Directory Studio 1.0	Apache Software Foundation  Apache Software Foundation	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AppSync Host Plug-in 3.1	Dell Technologies	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AppSync Host Plug-in 3.5	Dell Technologies	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AppSync Host Plug-in 3.7	Dell Technologies	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
asm 3.2	Oracle	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
audit-libs 3.0	Oracle	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AUTO-AUDIT 5.7 AUTO-AUDIT 6.1	Refinitiv Refinitiv	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AUTO-AUDIT 6.2	Refinitiv	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AUTO-AUDIT 6.3	Refinitiv	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AUTO-AUDIT 6.4	Refinitiv	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AUTO-AUDIT 6.5	Refinitiv	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AUTO-AUDIT 6.6 Base Operating System Data 5.2	Refinitiv IBM	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
blog 2.1	SUSE	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
blog 2.19	SUSE	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
bluez-libs 5.4	Oracle	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
BooTP/DHCP Server	Rockwell Automation	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
BooTP/DHCP Server 3.0 Borland Database Engine 4.1	Rockwell Automation Micro Focus	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Borland Database Engine 4.1	Micro Focus	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Borland Database Engine 4.5	Micro Focus	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Borland Database Engine 5.1	Micro Focus	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Borland Database Engine 5.11	Micro Focus	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Borland Database Engine 5.2 Borland Database Engine 5.5	Micro Focus Micro Focus	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
CCMA ActiveX Controls	Avaya	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
CCMA ActiveX Controls 11	Avaya	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
CCMA ActiveX Controls 14	Avaya	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
CCMA ActiveX Controls 15.0	Avaya	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
CCMA ActiveX Controls 30.0 CCMA ActiveX Controls 40.0	Avaya Avaya	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Cherwell Client 10.1	Cherwell Software	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Cherwell Client 10.2	Cherwell Software	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
ChocolateyGUI 0.2	Chocolatey	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Client Management Script Library 1. Client Management Script Library 1.	HP	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Client Management Script Library 1.  Client Management Script Library 1.		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
CodeMeter Runtime Kit 3.10	WIBU-SYSTEMS	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
CodeMeter Runtime Kit 3.20	WIBU-SYSTEMS	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
CodeMeter Runtime Kit 3.30	WIBU-SYSTEMS	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
CodeMeter Runtime Kit 4.20 CodeMeter Runtime Kit 4.50	WIBU-SYSTEMS	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
CodeMeter Runtime Kit 4.50  CodeMeter Runtime Kit 5.20	WIBU-SYSTEMS WIBU-SYSTEMS	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
CodeMeter Runtime Kit 5.21	WIBU-SYSTEMS	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Common CAPI Flash Device Software	IBM	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Common Diskette Device Software 5		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Common Diskette Device Software 6		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Common Ethernet Software 5.2 Common Ethernet Software 6.1	IBM IBM	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Common FDDI Software (devices.com		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Common HDLC Software 5.2	IBM	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Common IBM Disk Software 5.2	IBM	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Common IBM FC Software 5.2	IBM	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Common IBM FC Software 7.2 Common IBM SAS RAID Software 5.2	IBM 2 IBM	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Common IBM SAS RAID Software 6.2		Inis Application is ignored in favor of new wildcarding rule or non-commercial applications. All related evidences are mapped to respective major version of the Product.  This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Common IDE I/O Controller Software		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Common Keyboard, Tablet, and Mon	IBM	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Common Keyboard, Tablet, and Mon		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Common SCSI I/O Controller Softwar Common SCSI I/O Controller Softwar		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Common Sestifu Controller Softwa		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Common Token Ring Software (devi-		
Common Token Ring Software (device Common Token Rin		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.

Common xHCI Adapter Device Softw	IBM	This Application is ignored in favor of new wildcard	ling rule for non-commerci	ial annlications	All related evidences are manned to	respective major version of the Product
COMOS iDB 10.2	Siemens	This Application is ignored in favor of new wildcard				
Conan 1.44	JFrog	This Application is ignored in favor of new wildcard				
Connector	Delphix	This Application is ignored in favor of new wildcard				
container-selinux 2.21		This Application is ignored in favor of new wildcard				
	Oracle		•			
Control Center Client 15.3	IndigoVision	This Application is ignored in favor of new wildcard				
Control Center Client 15.4	IndigoVision	This Application is ignored in favor of new wildcard				
Control Center Client 4.10	Avigilon	This Application is ignored in favor of new wildcard				
Control Center Client 4.12	Avigilon	This Application is ignored in favor of new wildcard				
Control Center Client 4.8	IndigoVision	This Application is ignored in favor of new wildcard				
Control Center Client 5.1	Avigilon	This Application is ignored in favor of new wildcard				
Control Center Client 5.10	Avigilon	This Application is ignored in favor of new wildcard				
Control Center Client 5.2	Avigilon	This Application is ignored in favor of new wildcard				
Control Center Client 5.4	Avigilon	This Application is ignored in favor of new wildcard				
Control Center Client 5.6	Avigilon	This Application is ignored in favor of new wildcard				
Control Center Client 5.8	Avigilon	This Application is ignored in favor of new wildcard				
Control Center Client 6.10	Avigilon	This Application is ignored in favor of new wildcard				
Control Center Client 6.12	Avigilon	This Application is ignored in favor of new wildcard				
Control Center Client 6.14	Avigilon	This Application is ignored in favor of new wildcard				
Control Center Client 6.4	Avigilon	This Application is ignored in favor of new wildcard				
Control Center Client 6.6	Avigilon	This Application is ignored in favor of new wildcard				
Control Center Client 6.8	Avigilon	This Application is ignored in favor of new wildcard				
Customer Research Participation 1.8	Seiko Epson	This Application is ignored in favor of new wildcard				
Data Protection   Client Security Fra		This Application is ignored in favor of new wildcard				
Data Protection   Client Security Fra	Dell Technologies	This Application is ignored in favor of new wildcard	ding rule for non-commerci	ial applications	. All related evidences are mapped to	respective major version of the Product.
Data Protection   Client Security Fra		This Application is ignored in favor of new wildcard				
Data Protection   Client Security Fra		This Application is ignored in favor of new wildcard				
Data Protection   Client Security Fra		This Application is ignored in favor of new wildcard				
Data Protection   Client Security Fra		This Application is ignored in favor of new wildcard				
Data Protection   Client Security Fra		This Application is ignored in favor of new wildcard
