List of Applications Deleted in ARL #2700

		List of Applications Deleted in ARL #2700	
SoftwareTitleName .NET Core Windows Server Ho	Publisher	Reason	n of the Dander
	Teradata	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version.	
Access Module for GCS 17.1 Access Module For JMS 17.1	Teradata	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version.	
Access Module For JMS 17.2	Teradata	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Access Module for Kafka 16.20		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major versio	
Access Module for Kafka 17.10	Teradata	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	n of the Product.
ADRE SXP 2.90	General Electric	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Advisor XE 21.2	Intel	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Advisor XE 21.3	Intel	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
AFP Viewer 7.20 AFP Viewer 7.30	ISIS Papyrus ISIS Papyrus	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version.	
AFP Viewer 7.4	ISIS Papyrus	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
AFP Viewer 7.50	ISIS Papyrus	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
AFP Viewer 7.6	ISIS Papyrus	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	n of the Product.
AMP for Endpoints Connector	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
AMP for Endpoints Connector AMP for Endpoints Connector		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version.	
AMP for Endpoints Connector		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version.	
AMP for Endpoints Connector	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
AMP for Endpoints Connector	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
AMP for Endpoints Connector	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	n of the Product.
		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
AMP for Endpoints Connector		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
AMP for Endpoints Connector AMP for Endpoints Connector		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version.	
AMP for Endpoints Connector	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
AMP for Endpoints Connector	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
AMP for Endpoints Connector	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	n of the Product.
AMP for Endpoints Connector		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
AMP for Endpoints Connector	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
AMP for Endpoints Connector AMP for Endpoints Connector		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version.	
AMP for Endpoints Connector AMP for Endpoints Connector		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version.	
AMP for Endpoints Connector	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
AMP for Endpoints Connector	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major versio	
AMP for Endpoints Connector	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	n of the Product.
AMP for Endpoints Connector		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
AMS Machinery Manager Clien		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
AMS Machinery Manager Clier AMS Machinery Manager Clier		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version.	
AMS Machinery Manager Clier		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version.	
AMS Machinery Manager Clien	Emerson Electric	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
AMS Machinery Manager Clien		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major versio	
	Apache Software Foundation	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	n of the Product.
Apache Portable Runtime (APF		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Apigee-Drupal 7.6	Google	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Apigee-Drupal 7.7 App Player 0.9	Google BlueStacks	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version.	
App Player 4.1	BlueStacks	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
App Player 4.2	BlueStacks	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
App Player 4.3	BlueStacks	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	n of the Product.
App Player 4.4	BlueStacks	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
App Player 4.5	BlueStacks	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
App Player 4.6 App Player 4.8	BlueStacks BlueStacks	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version.	
App Player 4.9	BlueStacks	This Application is ignored in favor or new ministrating rule for non-commercial applications. All related evidences are mapped to respective major version.	
apr-util 1.3	Oracle	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
apr-util 1.5	Oracle	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	n of the Product.
apr-util 1.6	Oracle	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
ArcGIS Earth 1.1	ESRI	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
ArcGIS Earth 1.2 ArcGIS Earth 1.3	ESRI ESRI	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version.	
ArcGIS Earth 1.3	ESRI	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version applications are mapped to respective major version.	n of the Product
ArcGIS Earth 1.5	ESRI	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	n of the Product.
ArcGIS Earth 1.6	ESRI	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	n of the Product.
ArcGIS Earth 1.7	ESRI	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
ArcGIS Earth 1.8	ESRI ESRI	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version.	
ArcGIS Earth 1.9 ArcGIS for AutoCAD 10.5	LONI	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	ii oi tile Product.
	ESRI	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are manned to respective major version	
Array Diagnostic Utility 7.2	ESRI Hewlett Packard Enterprise	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version.	n of the Product.
			n of the Product. n of the Product.
Array Diagnostic Utility 7.2 Array Diagnostic Utility 7.3 Array Diagnostic Utility 7.4	Hewlett Packard Enterprise Hewlett Packard Enterprise Hewlett Packard Enterprise	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major versio This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major versio This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version.	n of the Product. n of the Product. n of the Product. n of the Product.
Array Diagnostic Utility 7.2 Array Diagnostic Utility 7.3 Array Diagnostic Utility 7.4 Array Diagnostic Utility 7.5	Hewlett Packard Enterprise Hewlett Packard Enterprise Hewlett Packard Enterprise Hewlett Packard Enterprise	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	n of the Product.
Array Diagnostic Utility 7.2 Array Diagnostic Utility 7.3 Array Diagnostic Utility 7.4 Array Diagnostic Utility 7.5 Array Diagnostic Utility 7.6	Hewlett Packard Enterprise	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version and application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version are in this Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version are in the Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version are in the Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version are in the Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version are in the Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version are in the Application is ignored in favor of new wildcarding rule for non-commercial applications.	n of the Product.
Array Diagnostic Utility 7.2 Array Diagnostic Utility 7.3 Array Diagnostic Utility 7.4 Array Diagnostic Utility 7.5 Array Diagnostic Utility 7.5 Array Diagnostic Utility 7.6 Array Diagnostic Utility 7.7	Hewlett Packard Enterprise Hewlett Packard Enterprise Hewlett Packard Enterprise Hewlett Packard Enterprise Hewlett Packard Enterprise Hewlett Packard Enterprise	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version this Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version.	n of the Product.
Array Diagnostic Utility 7.2 Array Diagnostic Utility 7.3 Array Diagnostic Utility 7.4 Array Diagnostic Utility 7.5 Array Diagnostic Utility 7.6	Hewlett Packard Enterprise	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version and application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version are in this Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version are in the Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version are in the Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version are in the Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version are in the Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version are in the Application is ignored in favor of new wildcarding rule for non-commercial applications.	n of the Product.
Array Diagnostic Utility 7.2 Array Diagnostic Utility 7.3 Array Diagnostic Utility 7.4 Array Diagnostic Utility 7.5 Array Diagnostic Utility 7.6 Array Diagnostic Utility 7.7 Array Diagnostic Utility 7.7	Hewlett Packard Enterprise	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version.	n of the Product.
Array Diagnostic Utility 7.2 Array Diagnostic Utility 7.3 Array Diagnostic Utility 7.4 Array Diagnostic Utility 7.5 Array Diagnostic Utility 7.5 Array Diagnostic Utility 7.7 Array Diagnostic Utility 7.7 Array Diagnostic Utility 7.8 Array Diagnostic Utility 8.1 Array Diagnostic Utility 8.1 Array Diagnostic Utility 8.1	Hewlett Packard Enterprise Hewlett Packard Enterprise	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version.	n of the Product.
