List of Applications Deleted in ARL #2701

		List of Applications De	eleted in AKL #2701
SoftwareTitleName .NET Core Windows Server Hosti	Publisher Microsoft	Reason  This Application is ignored in favor of new wildcarding rules.	ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Access Module for Amazon S3 17	Teradata		ale for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Access Module for PowerShell 5.	Haxx		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Access Module for PowerShell 5.	Haxx		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Access Module for PowerShell 5.	Haxx		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Access Module for PowerShell 5. Access Module for PowerShell 5.	Haxx Haxx		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  Le for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Access Module for PowerShell 5.	Haxx		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Accessibility Wizard 5.1	Microsoft	This Application is ignored in favor of new wildcarding ru	ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Accessibility Wizard 5.2	Microsoft		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
ACT Enterprise Client AirPort Utility 11.0	Vanderbilt Industries Apple		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  Le for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AirPort Utility 12.0	Apple		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AirPort Utility 9.3	Apple		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Analysis Server 1.2	Adobe		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Analytics Engine 10.3	CaseWare International CaseWare International		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Analytics Engine 10.4 ansible 2.5	Canonical		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  Le for non-commercial applications. All related evidences are mapped to respective major version of the Product.
ansible 2.9	Canonical		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
antir3 3.5	Canonical		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Apache HTTP Server 2.4	Canonical		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Aperture VISTA Repository Admit APM Standalone Agents 10.5	Aperture Broadcom		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  Le for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Application Service Controller da	IBM		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AppSync 1.0	Dell Technologies		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
apr-util 0.9	Apache Software Foundation		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Austraclear Client 2.13 Austraclear Client 2.15	ASX ASX		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  Le for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AutoCAD Plant 3D Language Pack	Autodesk		the for non-commercial applications. All related evidences are mapped to respective major version of the Product.  Let for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa	Amazon		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa	Amazon		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa	Amazon		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa AWS SAM Command Line Interfa	Amazon Amazon		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  Le for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa	Amazon		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa	Amazon	This Application is ignored in favor of new wildcarding ru	ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa	Amazon		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa AWS SAM Command Line Interfa	Amazon Amazon		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  Le for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa	Amazon		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa			ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa	Amazon		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa	Amazon		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa AWS SAM Command Line Interfa	Amazon Amazon		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  Le for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa	Amazon		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa	Amazon		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa	Amazon		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa AWS SAM Command Line Interfa	Amazon Amazon		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  Le for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa	Amazon		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa	Amazon	This Application is ignored in favor of new wildcarding ru	ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa	Amazon		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa AWS SAM Command Line Interfa	Amazon Amazon		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  Le for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa	Amazon		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa	Amazon		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa	Amazon		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa AWS SAM Command Line Interfa	Amazon Amazon		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  Le for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa	Amazon		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa	Amazon		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa	Amazon		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa AWS SAM Command Line Interfa	Amazon Amazon		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  Le for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa			ale for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa			ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa	Amazon		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa AWS SAM Command Line Interfa	Amazon Amazon		ale for non-commercial applications. All related evidences are mapped to respective major version of the Product.  Let for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa	Amazon		the for non-commercial applications. All related evidences are mapped to respective major version of the Product.  Let for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa	Amazon		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa			ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa			ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  Le for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa AWS SAM Command Line Interfa	Amazon Amazon	11 0	the for non-commercial applications. All related evidences are mapped to respective major version of the Product.  Let for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa		This Application is ignored in favor of new wildcarding ru	ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa	Amazon	This Application is ignored in favor of new wildcarding ru	ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa	Amazon		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa AWS SAM Command Line Interfa			ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  Le for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa	Amazon		le for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa	Amazon	This Application is ignored in favor of new wildcarding ru	ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa			ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa AWS SAM Command Line Interfa	Amazon		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  Le for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS SAM Command Line Interfa	Amazon Amazon		the for non-commercial applications. All related evidences are mapped to respective major version of the Product.  Let or non-commercial applications. All related evidences are mapped to respective major version of the Product.
Azure AD Connect Health with Al			ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Azure Connected Machine Agent	Microsoft		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Azure Connected Machine Agent	Microsoft		ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Azure Connected Machine Agent Azure Connected Machine Agent			ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  Le for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Azure Connected Machine Agent	Microsoft		le for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Azure Connected Machine Agent	Microsoft	This Application is ignored in favor of new wildcarding ru	ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Azure Connected Machine Agent			ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Azure Connected Machine agent Azure Connected Machine agent			ule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  Le for non-commercial applications. All related evidences are mapped to respective major version of the Product.

A C	A 41	The Auditoria is in additional formation of the Double and the Control of the Con
Azure Connected Machine agent		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Azure Connected Machine agent		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Azure Connected Machine agent	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Azure Connected Machine Agent	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Azure Connected Machine Agent	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Azure Connected Machine Agent		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
	Microsoft	
		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Azure Connected Machine agent	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Azure Connected Machine Agent		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Azure Information Protection Vie	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Azure Information Protection Vie	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Azure Information Protection Vie	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Azure Information Protection Vie	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Azure Information Protection Vie	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Azure Information Protection Vie	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Azure Information Protection Vie	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Azure Information Protection Vie		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
	Oracle	
bash 11.1		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Battery Management 1.5	Fluke	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
BB FlashBack 5.1 Express	Blueberry Software	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
BB FlashBack 5.2 Express	Blueberry Software	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
BetterTouchTool 2.716	Andreas Hegenberg	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
BetterTouchTool 3.624	Andreas Hegenberg	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
BIDS Trader 8.36	BIDS Trading	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
BIDS Trader 8.53	BIDS Trading	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
BitLocker Administration and Mo		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Brave Browser 0.20	Brave Software	This Application is ignored in favor of new wildcarding rule for non-commercial applications. Air related evidences are mapped to respective major version of the Product.  This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Brave Browser 0.20 Brave Browser 71.0		
	Brave Software	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Brave Browser 72.0	Brave Software	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Brave Browser 73.0	Brave Software	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Brave Browser 75.0	Brave Software	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Brave Browser 76.0	Brave Software	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Brave Browser 77.0	Brave Software	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Brave Browser 78.0	Brave Software	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Brave Browser 78.1	Brave Software	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Brave Browser 79.1	Brave Software	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Brave Browser 81.1 Brave Browser 83.1	Brave Software Brave Software	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Brave Browser 86.1	Brave Software	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Brave Browser 87.1	Brave Software	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Brave Browser 88.1	Brave Software	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Brave Browser 89.1	Brave Software	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Brave Browser 90.1	Brave Software	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Brave Browser 91.1	Brave Software	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Brave Browser 92.1	Brave Software	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Brave Browser 93.1	Brave Software	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Brave Browser 94.1	Brave Software	This Application is ignored in favor of new mildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  This Application is ignored in favor of new mildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Brave Browser 96.1	Brave Software	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Brave Browser 97.1	Brave Software	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Brave Browser 99.1	Brave Software	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Business Service Management Fo	Micro Focus	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
CARKpsmp 10.5	CyberArk	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
CARKpsmp 10.9	CyberArk	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
CARKpsmp 11.1	CyberArk	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
CARKpsmp 11.2	CyberArk	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
CARKpsmp 9.7	CyberArk	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
CARKpsmp 9.95		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
	CyberArk	
cfengine-nova 3.6	cfengineers	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
cfengine-nova 3.7	cfengineers	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Character Map 5.2	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Cinema 4D Team Render Server 1		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Cinema 4D Team Render Server :		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
CINEMA 4D Team Render Server	MAXON Computer	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Cinema 4D Team Render Server 2	MAXON Computer	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Citrix Files for Outlook 21.10	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Citrix Files for Outlook 22.4	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Citrix Files for Outlook 6.1	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Citrix Files for Outlook 6.2	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Citrix Files for Outlook 6.3	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Citrix Files for Outlook 6.4	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Citrix Files for Outlook 6.5	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Citrix Files for Outlook 6.6	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Citrix Files for Outlook 6.7	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Citrix Licensing 12.0	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Citrix Licensing 12.1	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Citrix Licensing 14.2	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Citrix Licensing 15.7	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Citrix Licensing 7.5	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Citrix Licensing 8.1	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Citrix Licensing 9.0	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Claim Test Pro		
	Cognizant Classic Tochnology	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Classic Addin	Classic Technology	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Collibra for Desktop	Collibra	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Collibra for Desktop 0.10	Collibra	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Collibra for Desktop 0.11	Collibra	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Collibra for Desktop 0.12	Collibra	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Collibra for Desktop 0.6	Collibra	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Collibra for Desktop 1.2	Collibra	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Collibra for Desktop 1.4	Collibra	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Collibra for Desktop 1.5	Collibra	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Collibra for Desktop 1.6	Collibra	This Application is ignored in favor of new mildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Common UNIX Printing System 1	Apple	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Common UNIX Printing System 1	Apple	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
	Apple	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Common UNIX Printing System 1	Apple	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
