List of Applications Deleted in ARL #2707

		List of Applications Deleted in ARL #2707
SoftwareTitleName	Publisher	Reason The Analistica is innered in faunc of non-wildcarding rule for non-commercial analisticar. All colored avidance are manned to represent an market and the Breduct
2D Barcode Key Emulator 2D Barcode Key Emulator 1.3	Panasonic	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
	Panasonic	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
2D Barcode Key Emulator 2.0	Panasonic	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
2D Barcode Key Emulator 3.0	Panasonic	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
actions-langs 10.3	Micro Focus	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
actions-langs 11.2 actions-langs 11.3	Micro Focus	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
v	Micro Focus	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
ActiveMatrix Policy Agent Docs 2.0 ActiveMatrix Policy Agent Docs 3.0	TIBCO TIBCO	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
ActiveMatrix Policy Agent Docs 3.0	TIBCO	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
ActiveMatrix Policy Manager Docum		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
ActiveMatrix Policy Manager Docum		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Activity Monitor 2.2	STEALTHbits Technologies	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Adaptive Server Enterprise ADO.NET		This application is ignored in favor of new wildcarding rule for non-commercial applications. All related wildcards are mapped to respective major version of the Product.
Advanced Queueing API Demos 10.1		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Agent Support 8.4	Envision Telephony	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Agile Office Suite for Microsoft Offic		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Agile Office Suite for Microsoft Offic		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AMI Capacity Database Web Service		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AppDynamics .NET Agent 21.10	AppDynamics	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AppDynamics .NET Agent 21.11	AppDynamics	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AppDynamics .NET Agent 21.12	AppDynamics	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AppDynamics .NET Agent 21.2	AppDynamics	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AppDynamics .NET Agent 21.3	AppDynamics	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AppDynamics .NET Agent 21.4	AppDynamics	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AppDynamics .NET Agent 21.5	AppDynamics	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AppDynamics .NET Agent 21.7	AppDynamics	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AppDynamics .NET Agent 21.8	AppDynamics	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AppDynamics .NET Agent 21.9	AppDynamics	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Application Manager Console 8.1	Ivanti	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Application Manager Console 8.3	Ivanti	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Application Manager Console 8.4	Ivanti	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Application Manager Console 8.5	Ivanti	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Application Manager Console 8.6	Ivanti	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Application Manager Console 8.7	Ivanti	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Application Manager Console 8.8	Ivanti	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Application Manager Console 8.9	Ivanti	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Application Performance Manageme		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Application Performance Manageme		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Auto-discovery 6.4	IBM	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Axeda Policy Server 6.8	PTC	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Barcode Configuration Utility 1.30	Panasonic	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Barcode Configuration Utility 2.0	Panasonic	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
BIND DNS tools 11.11	Oracle	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Binutils 11.11	Free Software Foundation	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Bluetooth Explorer 6.0	Apple	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
	Micro Focus	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Broker PowerShell Snap-In 5.1	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Broker PowerShell Snap-In 5.6	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Broker PowerShell Snap-In 7.1	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Broker PowerShell Snap-In 7.10 Broker PowerShell Snap-In 7.11	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Broker PowerShell Snap-In 7.11 Broker PowerShell Snap-In 7.12	Citrix Systems Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Broker PowerShell Snap-In 7.12 Broker PowerShell Snap-In 7.14		In supplication is general in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Broker PowerShell Snap-In 7.16	Citrix Systems Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Broker PowerShell Snap-In 7.17	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Broker PowerShell Snap-In 7.18	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Broker PowerShell Snap-In 7.19	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Broker PowerShell Snap-In 7.2	Citrix Systems	This application is ignored in favor of new wildcarding rule for non-commercial applications. All related wildcards are mapped to respective major version of the Product.
Broker PowerShell Snap-In 7.5	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Broker PowerShell Snap-In 7.8	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related wildcards are mapped to respective major version of the Product.
Broker PowerShell Snap-In 7.9	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
bundle-langs 10.3	Micro Focus	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
bundle-langs 11.2	Micro Focus	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
bundle-langs 11.3	Micro Focus	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
BusinessConnect Plug-in 5.1	TIBCO	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
BusinessConnect Plug-in 5.3	TIBCO	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
BusinessWorks iProcess Plugin 5.2	TIBCO	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
BusinessWorks iProcess Plugin 5.3	TIBCO	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
CATIA V5 Exchange	SpaceClaim	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
CATIA V5 Exchange 2.1	SpaceClaim	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
CATIA V5 Exchange 3.0	SpaceClaim	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
CATIA V5 Exchange 4.0	SpaceClaim	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
CATIA V5 Exchange 5.0	SpaceClaim	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
CATIA V5 Exchange 7.0	SpaceClaim	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
CATIA V5 Exchange 8.0	SpaceClaim	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
CATIA V5 Exchange 9.0	SpaceClaim	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
	BMC	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Change Manager for DB2 UDB Client		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Change Manager for DB2 UDB Client		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
ChangeMan 5.5	Micro Focus	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Cinema 4D Team Render Server 25	MAXON Computer	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Circuit Tools 2.5	Racelogic Citriu Sustama	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Citrix Licensing 10.1	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Citrix Licensing 11.1	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Citrix Licensing 11.10	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Citrix Licensing 11.11	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Citrix Licensing 11.12	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Citrix Licensing 11.13	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Citrix Licensing 11.14	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Citrix Licensing 11.15	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Citrix Licensing 11.16	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Citrix Licensing 11.17	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Citrix Licensing 11.5	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Citrix Licensing 11.6	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Citrix Licensing 11.9	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Citrix Licensing 14.1	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Citrix Licensing 14.3	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Citrix Licensing 15.5	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.

Citrix Licensing 15.6	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	n of the Product.
Citrix Licensing 4.6	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	n of the Product.
Citrix Licensing 6.7	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Citrix Licensing 6.8	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Citrix Studio 7.1	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Citrix Studio 7.11	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Citrix Studio 7.12	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Citrix Studio 7.13 Citrix Studio 7.14	Citrix Systems Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Citrix Studio 7.15	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Citrix Studio 7.16	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Citrix Studio 7.18	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Citrix Studio 7.19	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Citrix Studio 7.2	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	n of the Product.
Citrix Studio 7.20	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Citrix Studio 7.21	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Citrix Studio 7.22	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Citrix Studio 7.24 Citrix Studio 7.30	Citrix Systems Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Citrix Studio 7.31	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Citrix Studio 7.33	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Citrix Studio 7.5	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Citrix Studio 7.6	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	n of the Product.
Citrix Studio 7.7	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Citrix Studio 7.8	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Citrix Studio 7.9 ClaimCheck Knowledge Base 10.1	Citrix Systems McKesson	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
clarity-perl 5.24	BMC	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
CLM Administrator 1	Hexagon	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Collector	LogicMonitor	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
ComarchCryptoProvider 2.6	Comarch	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
commons-fileupload 1	IBM	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Condeco Add-in 2012	Condeco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Condeco Add-in 5.2 Condeco Add-in 5.5	Condeco Condeco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Condeco Add-in 5.5	Condeco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Configuration Logging Service Power	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Configuration Logging Service Power	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	n of the Product.
Configuration Logging Service Power	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Configuration Logging Service Power	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Configuration Logging Service Power	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Configuration Logging Service Power	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version.	
Configuration Logging Service Power Configuration Logging Service Power	Citrix Systems Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Configuration Logging Service Power	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Configuration Logging Service Power	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Configuration Logging Service Power	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Configuration Logging Service Power	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Configuration Logging Service Power	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Configuration Logging Service Power Configuration Service PowerShell sna	Citrix Systems Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Configuration Service PowerShell sna	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Configuration Service PowerShell sna	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Configuration Service PowerShell sna	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	n of the Product.
Configuration Service PowerShell sna	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Configuration Service PowerShell sna	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Configuration Service PowerShell sna	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Configuration Service PowerShell sna Configuration Service PowerShell sna	Citrix Systems Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Configuration Service PowerShell sna	Citrix Systems	This Applications is gnored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Configuration Service PowerShell sna	Citrix Systems	This Application is ignored in favor of new wildcarding rule to non-commercial applications. All related evidences are mapped to respective major version	
Configuration Service PowerShell sna	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Configuration Service PowerShell sna	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	n of the Product.
Configuration Service PowerShell sna	Citrix Systems	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Content Navigator Edit Service 3.0	IBM	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Content Services 1.0 curl 7.6	HP Oracle	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
curl 7.7	Oracle	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Customer Service Software (CSS)	Tait Communications	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Cybereason Sensor 16.17	Cybereason	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Cybereason Sensor 17.6	Cybereason	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	n of the Product.
Cybereason Sensor 18.1 Cybereason Sensor 19.1	Cybereason	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related widences are mapped to respective major version.	
Cybereason Sensor 19.1 Cyclone Object Exchange for AutoCA	Cybereason Hexagon	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Data Enricher 1.2	Nexthink	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Data Protection Security Tools 1.1	Dell Technologies	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Data Protection Security Tools 1.10		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	
Data Protection Security Tools 1.12	Dell Technologies	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	n of the Product.
Data Protection Security Tools 1.12 Data Protection Security Tools 1.2	Dell Technologies Dell Technologies	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version	n of the Product. n of the Product.
Data Protection Security Tools 1.12 Data Protection Security Tools 1.2 Data Protection Security Tools 1.3	Dell Technologies Dell Technologies Dell Technologies	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version This Application is ignored in favor of new wildcarding rule for non-commercial applications.
