## List of Applications Deleted in ARL #2712

SoftwareTitleName	Publisher	List of Applications Deleted in ARL #2712 Reason
.NET Data Provider for Teradata 7	Teradata	Necson This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Accumulo 1.7	Apache Software Foundation	his application is ignored in favor of new wildcarding rule for non-commercial applications. An interact evidences are mapped to respective major version of the Product. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
ACR/Workbench 9.1	Infogix	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Advanced Configuration Collector A.05	HP	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
auditlog-keeper-rdbms 0.3	SUSE	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
auditlog-keeper-spacewalk-validator 0.3	SUSE	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
auditlog-keeper-syslog 0.3	SUSE	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
auditlog-keeper-xmlout 0.3	SUSE	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Autologon 3.01	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Autologon 3.10	Microsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Axiom Client 9.9	AXIOMSL	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Borderless Security SSO Client 6.1	Thales Group	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Borland Database Engine 5.1 Enterprise	Micro Focus	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
centreon-broker-cbd 19	Centreon	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
centreon-broker-cbd 21	Centreon	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
centreon-broker-cbd 3	Centreon	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
centreon-broker-cbmod 19.10	Centreon	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
centreon-broker-cbmod 20.04	Centreon	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
centreon-broker-cbmod 21	Centreon	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
centreon-broker-cbmod 3	Centreon	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
centreon-broker-core 19.10	Centreon	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
centreon-broker-core 20.04	Centreon	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
centreon-broker-core 21	Centreon	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
centreon-broker-core 3.0	Centreon	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
centreon-broker-storage 19.10	Centreon	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
centreon-broker-storage 20.04	Centreon	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
centreon broker storage 2.0	Centreon	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  This Application is legaced in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
centreon-broker-storage 3.0	Centreon	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  This Application is legaced in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
CUDA Toolkit 10.1 CUDA Toolkit 10.2	NVIDIA NVIDIA	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
CUDA Toolkit 10.2 CUDA Toolkit 11.1	NVIDIA	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
CUDA Toolkit 11.1	NVIDIA	ins Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
CUDA Toolkit 11.2 CUDA Toolkit 11.3	NVIDIA	ins application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
CUDA Toolkit 11.3 CUDA Toolkit 11.4	NVIDIA	ins Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
CUDA Toolkit 11.4 CUDA Toolkit 11.5	NVIDIA	his Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
CUDA Toolkit 11.5	NVIDIA	his application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
CUDA Toolkit 11.7	NVIDIA	his Application is ignored in favor of new wildcarding rule for non-commercial applications. An inelacte evidences are mapped to respective major version of the Product.  This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
CUDA Toolkit 9.1	NVIDIA	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
CUDA Toolkit 9.2	NVIDIA	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
cyrus-sasl 2		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Database Options 18c Enterprise	Oracle	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Database Options 8i R1 Enterprise	Oracle	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Database Options 9i Enterprise	Oracle	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
DataFabric Manager 9.9	NetApp	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Decision Server 8.11 Rules	IBM	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Docker Desktop 1.12 Community	Docker	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
End User Management Gateway Server Co	HP	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Error Correcting Code 6.0	HP	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
ExamShield	Peoplecert	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Explzh 7.6	pon software	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Explzh 7.9	pon software	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Explzh for Windows 8.50	pon software	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
FilExile 3	FilExile Team	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
gitk 2	Canonical	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
glusterfs-server 3.12	Red Hat	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
ipset 6.3	CentOS	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
	A HP	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
( ) / / / / / / / / / / / / / / / / / /	HP .	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Java Required Files 11g R2	Oracle	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Java Required Files 18.3	Oracle	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Java Required Files 19.3	Oracle	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
java-1.6.0-openjdk-demo 1	Red Hat	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
java-1.6.0-openjdk-src 1	Red Hat	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
java-1.8.0-openjdk-accessibility 1	Red Hat	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
java-1.8.0-openjdk-accessibility-debug 1	Red Hat	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
java-1.8.0-openjdk-debug 1 java-1.8.0-openjdk-demo 1	Red Hat Red Hat	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
java-1.8.0-openjdk-demo 1 java-1.8.0-openjdk-demo-debug 1.8	Red Hat	Ins Application is ignored in law or of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
java-1.8.0-openjdk-demo-debug 1.8 java-1.8.0-openjdk-headless-debug 1	Red Hat	ins application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
java-1.8.0-openjdk-javadoc-debug 1.8	Red Hat	his Application is ignored in favor of new midcarding rule for non-commercial applications. An inflated evidences are mapped to respective major version of the Product.  This Application is ignored in favor of new midcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
java-1.8.0-openjdk-javadoc-zip 1	Red Hat	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
java-1.8.0-openjdk-javadoc-zip-debug 1	Red Hat	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
java-1.8.0-openjdk-src-debug 1.8	Red Hat	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
JBoss Application Server 7	Red Hat	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
libgcc 8	Free Software Foundation	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
libgcc_s1 10.3	Software in the Public Interest	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
libgpg-error 0	GnuPG Project	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
libgpg-error 1	GnuPG Project	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
libgpg-error0 1		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Libxml 1.8	Daniel Veillard	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Izo 2		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
maven-wagon-http-shared 3.1	CentOS	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
nano 2.7	Software in the Public Interest	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Netscape FastTrack Server B.03	HP	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
NI Example Finder 1	National Instruments	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
NI Example Finder 10	National Instruments	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
NI Example Finder 11	National Instruments	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
NI Example Finder 12	National Instruments	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
NI Example Finder 13	National Instruments	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
NI Example Finder 14.0	National Instruments	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
NI Example Finder 15.0	National Instruments	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
NI Example Finder 16.0	National Instruments	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
NI Example Finder 17.0	National Instruments	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
NI Example Finder 18.0	National Instruments	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  This Application is legaced in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
NI Example Finder 19.0	National Instruments	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  This Application is legaced in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
NI Example Finder 2 NI Example Finder 3.60	National Instruments National Instruments	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  This Application is legaced in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
NI Example Finder 3.60 NI Example Finder 8	National Instruments  National Instruments	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.  This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
NI Example Finder 8 NI Example Finder 9	National Instruments National Instruments	Ins Application is ignored in law or of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
