List of Applications Deleted in ARL #2714

		List of Applications Deleted in ARL #2714
SoftwareTitleName	Publisher	Reason
Advantage Client Engine SDK 10.1	SAP	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Endpoint Encryption Autologon 11.1	Broadcom	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Endpoint Encryption Autologon Client 1	Broadcom	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Enterprise Java Beans and CORBA Tools		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Enterprise Java Beans and CORBA Tools		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Enterprise Manager Ecommerce Advan Enterprise Performance Management \	Oracle Oracle	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Enterprise Single Sign-On Administrativ	Oracle	his Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. This Application is ignored in favor of new wildcarding rule for non-commercial applications, All related evidences are mapped to respective major version of the Product.
Enterprise Vault Exchange Store Report	Veritas	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Exploratory Testing Server 15	Tricentis	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Font Manager Component 7.0	Adobe	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
fonttools 2.4	Red Hat	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Forte Developer 6 FORTRAN 77 static li	Oracle	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Freedom JS 4.1	Autodesk	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Gateway Service	Tricentis	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
gdeploy 2.0	Red Hat	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Hospitality Suite8 Property Instance an	Oracle	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
HPSSupply 2.2	HP	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
HTTrack Website Copier 3.1	Xavier Roche	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
HY12 1.0		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
HY12 1.1	Federal Highways A	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
IFC8 8.1	Oracle	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Insight Foundation Agents 10.6	Hewlett Packard En	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Insight Foundation Agents 10.7		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Insight Foundation Agents 7.3 Insight Foundation Agents 7.4	Hewlett Packard En Hewlett Packard En	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Insight Foundation Agents 7.4 Insight Foundation Agents 7.6	Hewlett Packard En	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Insight Foundation Agents 7.6 Insight Foundation Agents 8.1	Hewlett Packard En	Inis Application is ignored in layor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. This Application is ignored in layor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Insight Foundation Agents 8.1 Insight Foundation Agents 8.6		Inis Application is ignored in layor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Simulation Job Manager 6.0	Autodesk	ins application is ignored in favor of new wildcarding rule for non-commercial applications. An related evidences are mapped to respective major version of the Product. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Simulation Job Manager 6.1	Autodesk	his application is gnoted in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Simulation Job Manager 6.2	Autodesk	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Simulation Job Manager 7.1	Autodesk	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
SoftPaq Download Manager 1	HP	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
SoftstarterCare - Service Engineer Tool	ABB	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Solaris Cluster HA Oracle data service 3	Oracle	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Solaris Cluster HA Oracle Data Service 3	Oracle	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Solaris Cluster NFS Server Component 3	Oracle	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Solaris Developer Collection	Oracle	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Spatial Index Advisor 2.1	Oracle	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Spatial Index Advisor 2.2	Oracle	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Spectrum Protect for SAN Storage Ager		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
SQL Anywhere Network Server 5.0	SAP	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
SQL Anywhere Network Server 7.0	SAP	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
SQL Studio 7.6		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Storage Command Line 7.1 Sun Cluster HA for Oracle Packages 3.0	Broadcom Oracle	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
SunHSI PCI driver 3	Oracle	his application is ignored in favor of new wildcarding rule for non-commercial applications. An enacte evidences are mapped to respective major version of the Product. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
SUNWpcnfd 1.2	Oracle	his application is gnoted in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
SUNWs8hwman 1.0	Oracle	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
SUNWs8hwman1 1.2	Oracle	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Team Server Components 4.0	SAP	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
tideway-device-api 5.0	BMC	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
tideway-device-api 5.1	BMC	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Tosca Administration Console	Tricentis	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Tosca REST API Service	Tricentis	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
tpm-tools 3.2	CentOS	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Tricentis Authentication Service	Tricentis	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Tricentis Project Service	Tricentis	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Tricentis Tosca Notification Service	Tricentis	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
tw-carkaim 2.0	BMC	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Unified ICM/Contact Center Enterprise	Cisco	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Unified ICM/Contact Center Enterprise		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
User Manager Component 7.0	Adobe Autodesk	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Vault SDK 2014 VERITAS Array Support Library 2.0	Veritas	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Veritas Cluster Server Configuration Wi		mis application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Veritas Cluster Server Oracle and RAC O		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
VERITAS Cluster Server VProAgent Fran		This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
VRTSsiebel 5.1	Veritas	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
WFT-E1/E2/E3 Utility 3.2	Canon	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Windows System Files Verification 9.0	Oracle	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
XML Form Component 6.0	Adobe	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Zone Provisioning Agent 5.1	Centrify	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Zone Provisioning Agent 5.2	Centrify	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Zone Provisioning Agent 5.3	Centrify	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Zone Provisioning Agent 5.4	Centrify	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Zone Provisioning Agent 5.5	Centrify	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Zone Provisioning Agent 5.8	Centrify	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
