## List of Applications Deleted in ARL #2722

| Application Name | Publisher | Reason |
| --- | --- | --- |
| python-psutil 5.5 | Canonical | This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. |
| python-psutil 5.8 | Canonical | This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. |
| Winflows 3.3 | General Electric | This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. |
| Winflows 4.4 | General Electric | This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. |
| SPSS Data Access Pack 2.5 | IBM | This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. |
| SPSS Data Access Pack 6.1 | IBM | This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. |
| SPSS Data Access Pack 8.1 | IBM | This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. |
| StormRunner Git Agent 3.7 | Micro Focus | This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. |
| .NET Core Runtime 6 | Microsoft | This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. |
| Monitoring Agent 10.20 | Microsoft | This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. |
| Monitoring Agent 7.1 | Microsoft | This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. |
| Monitoring Agent 7.2 | Microsoft | This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. |
| Monitoring Agent 8.0 | Microsoft | This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. |
| Screen Agent 3.2 | NICE | This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. |
| Screen Agent 9.0 | NICE | This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. |
| Screen Agent 9.1 | NICE | This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. |
| python-srpm-macros | Oracle | This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. |
| python-srpm-macros 3-34 | Oracle | This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. |
| PTZ Control Center 1.01 | Panasonic | This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. |
| jConnect for JDBC 2.2 | SAP | This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. |
| jConnect for JDBC 4.1 | SAP | This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. |
| jConnect for JDBC 4.2 | SAP | This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. |
| jConnect for JDBC 4.5 | SAP | This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. |
| jConnect for JDBC 5.2 | SAP | This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. |
| jConnect for JDBC 5.5 | SAP | This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. |
| jConnect for JDBC 6.05 | SAP | This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. |
| jConnect for JDBC 7.07 | SAP | This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. |
| Fusion 5.0 | VMware | This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product. |
| Endpoint Agent 1.10 | Cisco | Invalid Application |
| Smartspy Analyzer 2.1 | FIME | Invalid Application |
| Smartspy Analyzer 2.2 | FIME | Invalid Application |
| Mozilla 1 | HP | Invalid Application |
| iBwave VIEWER 10.1 | iBwave Solutions | Invalid Application |
| iBwave VIEWER 14.1 | iBwave Solutions | Invalid Application |
| MindGenius Business | MindGenius | Invalid Application |
| nCipher Support Software 10.1 | nCipher | Invalid Application |
| nCipher Support Software 11.0 | nCipher | Invalid Application |
| Commons Codec 1.10 Enterprise | Oracle | Invalid Application |
| Commons Codec 1.11 Enterprise | Oracle | Invalid Application |
| expectk 5 | Oracle | Invalid Application |
| GoldenGate Services 11g | Oracle | Invalid Application |
