

## List of Applications Deleted in ARL #2727

SoftwareTitleName	Publisher	Reason
Jump Client 21.2	Bomgar	Invalid Application
LARS Bridge 10.4	Bentley Systems	Invalid Application
Relativity Web Client 6.10	Relativity	Invalid Application
Relativity Web Client 7.4	Relativity	Invalid Application
Relativity Web Client 7.5	Relativity	Invalid Application
Relativity Web Client 8.1	Relativity	Invalid Application
Relativity Web Client 8.2	Relativity	Invalid Application
Relativity Web Client 9.2	Relativity	Invalid Application
Relativity Web Client 9.3	Relativity	Invalid Application
Relativity Web Client 9.5	Relativity	Invalid Application
Relativity Web Client 9.6	Relativity	Invalid Application
SUNWlang 1	Oracle	Invalid Application
SUNWlang 11	Oracle	Invalid Application
TRIOS	TA Instruments	Invalid Application
Write-N-Cite 4.6	ProQuest	Invalid Application
Binary Solvent Manager 1.5	Waters	Invalid Application
Creo Elements/Direct License Server	PTC	Invalid Application
eMachineShop 1.94	eMachineShop	Invalid Application
LiveCycle Designer	Adobe	Invalid Application
Magician 7.1	Samsung	Invalid Application
Mozilla Firefox Web browser 5	Mozilla	Invalid Application
php 7	Remi Collet	Invalid Application
Popcorn Time	Popcorn Time	Invalid Application
Power Automate agent for virtual de	Microsoft	Invalid Application
Real-Time Testing 5.1	dSPACE	Invalid Application
signoSign/2 11.1	signotec	Invalid Application
VEOS AUTOSAR Adaptive Platform	dSPACE	Invalid Application
LaTeXiT 2.10	Pierre Chatelier	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
LaTeXiT 2.11	Pierre Chatelier	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
LaTeXiT 2.13	Pierre Chatelier	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
LaTeXiT 2.14	Pierre Chatelier	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
LaTeXiT 2.16	Pierre Chatelier	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS Systems Manager Agent 3.1	Amazon	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
AWS Systems Manager Agent 3.2	Amazon	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Coordinate System Manager 2.1	Trimble	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Coordinate System Manager 2.2	Trimble	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Coordinate System Manager 2.3	Trimble	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Coordinate System Manager 2.4	Trimble	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Coordinate System Manager 2.5	Trimble	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Coordinate System Manager 2.7	Trimble	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Coordinate System Manager 2.8	Trimble	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Coordinate System Manager 2.9	Trimble	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Coordinate System Manager 3.8	Trimble	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Coordinate System Manager 3.9	Trimble	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Internet Communications Manager 6	SAP	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Internet Communications Manager 7	SAP	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Internet Communications Manager 7	SAP	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Internet Communications Manager 7	SAP	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Joinpoint 4.9	National Cancer Institute	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
MOVE AV Multi-Platform Client 3.6	McAfee	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
MOVE AV Multi-Platform Client 4.6	McAfee	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
MOVE AV Multi-Platform Client 4.7	McAfee	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
MOVE AV Multi-Platform client 4.8	McAfee	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
MOVE AV Multi-Platform Client 4.9	McAfee	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
PI System Connector 2.2	OSIsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
PI System Connector 2.3	OSIsoft	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Popcorn Time 5.7	Popcorn Time	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
RealtimeSync 6.10	FreeFileSync	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
RealtimeSync 9.3	FreeFileSync	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
rhino 1.7	Micro Focus	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Sequencing Analysis Viewer (SAV) 1.2	Illumina	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
Sequencing Analysis Viewer (SAV) 2.4	Illumina	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
SQLiteStudio 3.2	SalSoft Pawel Salawa	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
SQLiteStudio 3.3	SalSoft Pawel Salawa	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
TRIOS 4.5	TA Instruments	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
TRIOS 5.1	TA Instruments	This Application is ignored in favor of new wildcarding rule for non-commercial applications. All related evidences are mapped to respective major version of the Product.
