

### List of Applications Updated in ARL #2732

| ApplicationName                                            | Publisher                  |
|------------------------------------------------------------|----------------------------|
| .NET Core Windows Server Hosting 6                         | Microsoft                  |
| .NET Runtime 6                                             | Microsoft                  |
| .NET Runtime 7                                             | Microsoft                  |
| .NET SDK 6                                                 | Microsoft                  |
| @ptitude Observer 11                                       | SKF Condition Monitoring   |
| @ptitude Observer 8                                        | SKF Condition Monitoring   |
| 7-Zip 21 Beta                                              | Igor Pavlov                |
| acpitool 0                                                 | Fedora Project             |
| Acrobat DC (2022) Continuous                               | Adobe                      |
| Acrobat Reader DC (2015)                                   | Adobe                      |
| Acrobat Reader DC (2021)                                   | Adobe                      |
| ActiveTcl (Free) 8.4                                       | ActiveState                |
| Adaptive protection against Endpoint Security threats 10.7 | McAfee                     |
| Advanced Renamer 3                                         | Kim Jensen                 |
| After Effects CC (2023)                                    | Adobe                      |
| Alertus Server                                             | Alertus Technologies       |
| Altair GraphQL Client 5.0                                  | Samuel Imolorhe            |
| AMS360 Client 2.0                                          | Vertafore                  |
| AMS360 Client 3.0                                          | Vertafore                  |
| AMS360 Client 4.0                                          | Vertafore                  |
| AMS360 Client 5.0                                          | Vertafore                  |
| AMS360 Client 6.0                                          | Vertafore                  |
| AMS360 Client 7.0                                          | Vertafore                  |
| AMS360 Client 8.0                                          | Vertafore                  |
| Analysis and Reporting Manager 2                           | SKF                        |
| AnyRecover 4                                               | iMyFone Technology         |
| Apache HTTP Server                                         | Apache Software Foundation |
| App Connect Enterprise 10.0 Advanced                       | IBM                        |
| AppCode 2022.3                                             | JetBrains                  |
| Appium Inspector 2022                                      | JS Foundation              |
| Applied Epic                                               | Applied Systems            |
| ArangoDB 3.8 Beta                                          | ArangoDB                   |
| ASP.NET Core Hosting Bundle 6                              | Microsoft                  |
| ASP.NET Core Shared Framework 7                            | Microsoft                  |
| Audacity 3.1                                               | Audacity                   |
| Audition CC (2023)                                         | Adobe                      |
| auditlog-keeper 0.2                                        | SuSE                       |
| auditlog-keeper 0.3                                        | SuSE                       |
| Automation Studio 7.8                                      | NICE                       |
| Autoruns 14                                                | Microsoft                  |
| AutoSplit Pro Plug-In 6.3                                  | EverMap                    |
| avast! Antivirus 21.9 Free                                 | AVAST Software             |
| Avocode 1.1                                                | Avocode                    |
| Avocode 2.1                                                | Avocode                    |
